PROFILE

A motivated and responsible Computer Science graduate with a strong willingness to learn and grow professionally. Experienced in working on academic and team-based projects, demonstrating effective communication, problem-solving, and collaboration skills. Adaptable to new environments, detail-oriented, and committed to completing tasks efficiently. Eager to contribute to an organization while continuously developing my knowledge and skills.

EDUCATION

Secondary:

Lumil Integrated National High School

Senior High School – STEM

Lumil, Silang, Cavite

2020 - 2022

Tertiary:

Cavite State University - Silang Campus

B.S. in Computer Science

Cavite Province, Biga I, Silang

2022 - 2026

PROJECTS

Task Tracker – Vite, React

It lets you create tasks, organize them by category, filter the lists and keep everything saved in the browser with local storage.

Game Backlog Tracker – Vite + MERN Stack

Created a responsive coffee shop using HTML and CSS, showcasing the coffee products to sell on the customer.

Tagaytay Memorial Park (Team Project) – C# .Net

This software keeps track records and logs of the individuals interred at Tagaytay Memorial Park.

Narralytics (Team Project) – MERN Stack

A full stack web-based application that analyzes OJT learning journals using text mining techniques to identify task patterns and assess their alignment with academic program competencies.

BlazeWalk (Game) - GDScript

Designed and developed a 2D platformer game with multi-level progression, implementing a game mechanic where defeating all enemies triggers key spawns that unlock doors to the next level.
